1. Do They Have

Extensive Experience?

When it comes to the health and aesthetics of your smile, having experience is key. Some questions to ask a potential dentist include how long they have been practicing, how many patients they have helped, and whether their experience includes providing a variety of treatments instead of simply the same one over and over. You should also consider whether your potential dentist attends continuing education courses to stay up to date with modern advancements in the field of dentistry.

As an experienced dentist, Dr. St. Matthew-Daniel has helped to improve over 20,000 smiles since 2005 through a wide variety of dental treatments that range from regular dental cleanings and exams to Invisalign treatment, fillings, dentures, dental implants, and more. Our entire team believes in the importance of staying current with the techniques and technologies available for quality dental care. For this reason, Dr. St. Matthew-Daniel regularly attends continuing education courses to supplement the distinguished education and training that she received while pursuing her dental and specialist degrees. This extensive experience and knowledge allows our practice to provide expert, professional care that matches each patient's unique needs.

2. Will They See You Right

Away for Emergencies?

When your tooth hurts, it hurts nearly as much to be told that there are no appointments available for several days, if not weeks. When choosing a dental practice, it is an absolute necessity for you to know that if you are in pain, your dental office will be there for you. You may often find that dental practices are booked weeks in advance, leaving little wiggle room for emergency visits. You should feel confident that when you need your dentist, you will be able to see them at once.

At All About Beautiful Smiles, you are our number-one priority. We know what tooth pain feels like and how important it is to bring you relief. We keep openings in our schedule to cater to our patients, new and existing, for when they are feeling pain. If you call in the morning, we will be able to see you in the afternoon. If you call in the afternoon, we will figure something out so that you can see us as soon as possible. Our dental team cares about you and your comfort, and you can count on us when an emergency arises.

3. Are They an All-in-One Practice With Various

Treatment Options?

Many dentists can at least offer cleanings, fillings, and other general dentistry basics. However, if you have a dental emergency that requires more involved care such as a root canal, you are often referred to another dentist who specializes in your needed solution. To avoid being sent to a different dental provider about whom you know little or nothing, check to see if your potential dental office provides a wide variety of services.

Dr. St. Matthew-Daniel has spent numerous years of practice expanding her expertise for your benefit. Her knowledge includes specialties such as dental implants, implant denture stabilization, root canals, sedation dentistry, Invisalign, cosmetic dentistry, and more. When you choose All About Beautiful Smiles for your dental care, you can rest assured that you're receiving the best care available, and that our team of experts can handle all your needs under one roof.

4. Will They

Respect Your Time?

School, work, and extracurricular activities can make it difficult to make and keep dental appointments. If you are respectful enough to show up on time, you shouldn't have to wait -- your appointment should start on time. Check your potential new dental office's waiting room reputations and ask if their appointments usually begin on time to gauge if they respect their patients' time.

At All About Beautiful Smiles, we understand that managing multiple responsibilities can limit your time for appointments for dental care and other treatments. That's why we work hard to keep our schedules running smoothly. You will experience virtually no wait times when you visit our office and we will take all the time necessary during your appointment, so you can feel confident that all your questions will be answered, and all your dental needs met.

5. Do They Offer a

Risk-Free Consultation?

Your first visit to a new dentist can be a costly experience. To create a comprehensive customized treatment plan, your dentist needs to do a complete exam including x-rays and a thorough discussion of everything from treatment options to an estimation of how long treatment will last. This is also your chance to ask questions, lay out all your concerns, and get educated on the decision that will impact your health.

At All About Beautiful Smiles, we offer a risk-free New Patient Appointment (valued at $287) at the special price of $49. Your appointment will include:

- Meet Dr. St. Matthew-Daniel & Discuss Your Goals
- Thorough Exam
- Pictures & X-Rays As Needed
- Custom Treatment Plan
- Free Copy of Dr. St. Matthew-Daniel's Book, The Delightful Dental Experience 2.0

The best part? This session is completely risk-free, meaning if you aren't satisfied with your consultation, we will refund your money. This is just another way we put our patients first.

6. Are They

Award-Winning?

Ask if your potential dental office has won any awards, since these can be an easy way to identify a dentist's reputation among his or her patients, colleagues, and community. Awards may be won for a variety of reasons, ranging from an office's outstanding customer service to a doctor's extensive experience and skill in the field of dentistry.

In addition to being named one of the Top Nine Women Making a Difference in Orlando, Dr. St. Matthew-Daniel has been voted Orlando's Top Dentist every year from 2012-2017 and was given the Reader's Choice Award by Orlando Style Magazine. Our entire team at All About Beautiful Smiles takes great pride in these accomplishments, and we continue to strive toward the highest standards that earned us this recognition.

7. Do They Support

Their Community?

When a dental team takes the time to give back to their community, that can be a strong sign of compassion and responsibility – key characteristics for any great dentist! Not only can you benefit directly from a caring dentist like this but you can also feel good knowing that you support a local business with heart.

The importance of giving back to our community and ensuring the less fortunate have access to quality dental care is a fundamental value for Dr. St. Matthew-Daniel and our team at All About Beautiful Smiles. As part of our efforts to strengthen and improve our community, we regularly donate our time and money to help others. One way we do this is by hosting the largest annual Free Dental Day in Orlando. We also offer contests for free services, like the Smile Makeover contest where the winner had eight dental implants placed for free. Providing happy, healthy smiles to as many people as possible is our mission!

8. Are They Committed to

Continued Education?

All dentists have successfully completed rigorous training to earn their dental degrees, but too many of them stop their education the day they collect their diplomas. Even though the fields of dentistry and medicine continue to advance, some dentists don't take the necessary steps to ensure they're up to date on the most current diagnostic and treatment options. The result? Inferior oral health care. Avoid this pitfall by asking your potential dental team whether they pursue continuing education and cutting-edge technology for their patients' benefit.

At All About Beautiful Smiles, our founder, Dr. St. Matthew-Daniel, earned her dental degree from the University of Pennsylvania School of Dental Medicine and is among the top 1% of dentists who went on to achieve a mastership from the International Congress of Oral Implantologists, the most recognized world authority in dental implant education. In addition to Dr. St. Matthew-Daniel's Ivy League education, she is committed to professional improvement and constantly seeks new technology and continuing education in the dental field. No matter what your condition may be, our expert dentist at All About Beautiful Smiles has likely helped a similar patient.

9. Do They Offer

Same-Day Treatment?

Some dental offices make you wait weeks or even months before you can be seen for your initial appointment. When you make the decision to explore your treatment options for general, cosmetic, or restorative dentistry, having to wait that long can be a hassle. The time you must wait for your first appointment can also be an indication of how available your doctor will be if any problems or emergencies arise during your treatment. Avoid all these issues by opting for a dental office with an accessible schedule and reasonable wait times for appointments.

At All About Beautiful Smiles, we know our patients have busy lives filled with work, school, sports, and countless other activities. Finding the time to fit dental appointments into the mix can be a challenge, which is why we offer same-day consultations and treatment starts. Just call us before noon and we will make it happen! Contact us today for more information about our services or to schedule your appointment. Providing happy, healthy smiles that fit YOUR schedule is our top priority. This is just another way we put our patients first!

10. Do They Have

A Guarantee?

A strong guarantee is the mark of a dentist who cares about you and your treatment. To confirm that your potential dentist will do his or her best to give you an ideal dental experience, ask whether the different types of treatment are backed by any guarantees.

Our team at All About Beautiful Smiles not only takes responsibility for the quality of your care but we also want you to feel respected and at ease throughout your time with us. That's why we offer a 100% Satisfaction Guarantee at our Orlando dental office! Our goal is for you to be completely satisfied and happy with your dental experience from start to finish. If you find your treatment process unsatisfying, simply let us know, and we'll do what it takes to make it right. Ask about our 100% Satisfaction Guarantee when you visit our Orlando dental office.

11. Bonus: Do They Provide

Flexible Financing?

I realize this report was only supposed to include 10 key things to look for when choosing a dentist, but affordable care is simply too important to ignore. The fact is, you shouldn't need to forego quality care for financial reasons. If you have dental insurance, be sure to choose a care provider who is in-network with your insurance company. Also, ask if your dentist offers flexible payment options for expenses not covered by insurance. Finally, if you don't have insurance, find out whether your prospective dental provider can do anything to make your care more affordable.

At All About Beautiful Smiles, we offer a variety of payment options, so you don't have to sacrifice expert care for affordable treatment. We are in-network with many insurance plans and participate in financing options with CareCredit and Lending Club Patient Solutions. We accept most major credit cards for payment simplicity and offer discounted services and procedures with our new Dental Savings Plan. Ultimately, our goal is to maximize your insurance coverage and make any remaining balance manageable. Your health should never be put on hold due to cost, and we strive to provide the most flexible payment offers possible for your benefit.
